

SOMERSBY, NSW

37 Acres International Class Equestrian Centre & Function Complex. Central Coas

This truly world class facility is built with solid bricks and mortar including genuine steel pillars and roof structures engineered to withstand any weather events. This is not a tin shed construction, but a genuine purpose-built warehouse.

Situated in a quite rural setting just minutes off the M1 motorway in the Central Coast region of NSW only 45 minutes from Wahroonga, Sydney.

To say the list of inclusions, features and the value is overwhelming would be an understatement.
